PROFESSIONAL SUMMARY

Motivated and detail-oriented web designer and developer with experience in both front-end and back-end development. Strong background in Python programming and web technologies, with additional expertise in multimedia editing. Passionate about teaching and mentoring students in programming and web development. Seeking opportunities to apply technical and instructional skills in innovative environments.

WORK EXPERIENCE

January 2025 - Present

Web Designer

Water Matters Laboratory (WML)

- Designed and maintained the laboratory's website for enhanced user experience.
- Developed UI/UX strategies to improve accessibility and engagement.
- Implemented responsive web designs using modern frameworks.

April 2024 - Present

Web Designer & Web Developer

Sustainable Hydro-Environmental Systems (SHENS) Lab

- Developed and maintained dynamic websites for research projects.
- Utilized React.js, Node.js, and Tailwind CSS for efficient web development.
- Managed website optimization and performance enhancement.

February 2025 - Present

Teacher Assistant - Python Programming Language

K.N.Toosi University of Technology

- Assisted in teaching Python programming fundamentals.
- Provided support to students through coding exercises and problem-solving.
- Conducted practical sessions to reinforce theoretical concepts.

January 2024 - June 2024

Teacher Assistant - Basic Web Development (HTML, CSS, JS)

K.N.Toosi University of Technology

- Supported students in learning foundational web technologies.
- Evaluated assignments and provided constructive feedback.
- Assisted in organizing hands-on coding workshops.

July 2024 - September 2024

High School Teacher - Project-Based Python & Arduino Learning

Rahyar Educational Complex

- Designed and delivered courses for beginner to advanced levels.
- Guided students in developing real-world projects using Python and Arduino.
- Encouraged creative problem-solving and critical thinking in programming.

EDUCATION

K.N.Toosi University of Technology

Instructor: Dr. Karim Alizad

Bachelor of Engineering, Civil Engineering

TECHNICAL SKILLS

Programming & Web Development

Python, JavaScript, React.js, Node.js, Tailwind CSS, Bootstrap, WordPress

Design & Multimedia

Adobe Premiere Pro, Adobe Photoshop, Adobe After Effects
